BIRDS OF A FEATHER

CHORUS

Birds of a feather, they'll stick together
They'll stick together, they'll stick together
They'll be your friend in all kinds of weather
Birds know it's better together

Oh I once knew a duck
His name was Charlie but we all called him Chuck
He got his legs stuck
In the sticky mucky muck

But Chuck, well he didn't worry
He just called up his old friend Murray
And together they splished and splashed
Oh they laughed and laughed in that dirty birdie bath
They laughed and laughed in that dirty birdie bath

CHORUS

Birds of a feather, they'll stick together
They'll stick together, they'll stick together
They'll be your friend in all kinds of weather
Birds know it's better together

I once knew a crow
His name was Jimmy Joe
He played on the piccolo
And was part of a traveling show

His partner was named Sly
He always had a tuba down by his side
Together their music filled the sky
Well Sly played low and Joe played high
Sly played low and Joe played high

CHORUS

Birds of a feather, they'll stick together
They'll stick together, they'll stick together
They'll be your friend in all kinds of weather
Birds know it's better together

Oh I once knew a goose,
Her name is Lucy P Goose and we just call her Luce
She loves her French juice
To us it's grapefruit to her it's pamplemousse

Her best friend is Jenevive,
They're so happy together they will never leave
And every New Years Eve
A new friendship bracelet is tucked beneath their sleeve
A new friendship bracelet is tucked beneath their sleeve

CHORUS

Birds of a feather, they'll stick together
They'll stick together, they'll stick together
They'll be your friend in all kinds of weather
Birds know it's better together

Birds of a feather, they'll stick together
They'll stick together, they'll stick together
They'll be your friend in all kinds of weather
Birds know it's better together
