FISH OUT OF WATER

What if all the fish
Suddenly got their wish
And learned to fly up in the sky
Oh wouldn't that be a twist

What if snakes could sing
And their tails went ding-a-ling
They would slide along and sing their song
Oh what music they might bring

CHORUS

Like a fish out of water
Like a bird deep in the sea
I want to explore and do so much more
I want to be all I can be
I want to be all I can be

What if birds could swim
I'm going to go out on a limb
I think they might just love the sight
Of inside the aquarium

What if bugs were tall
And people were really small
You might catch a ride on a dragonfly
And learn how ants can crawl

CHORUS

Like a fish out of water
Like a bird deep in the sea
I want to explore and do so much more
I want to be all I can be

You and me, you and me, you and me what will we be
You and me what will we be, what will we be

What if up was down
What if in was out
What if all the things that we know about
Were up, down and inside out

CHORUS

Like a fish out of water
Like a bird deep in the sea
I want to explore and do so much more
I want to be all I can be
I want to be all I can be

I want to be, be, be, be, be a bumblebee
